

Requirements and Analysis Document for group 16

Erik Sjöström, Filip Labe, Jonatan Källman, Sarosh J. Nasir

March 21, 2017
v1.0

1 Introduction

We have indentified a huge gap in the world of clicker games, namely Lord of the Rings based clicker games. Our project aims to fill that gap.

This game will simulate the adventure of Frodo and friends on their quest to destroy the one ring, and will benifit anyone who likes both LOTR and clickers. This game might be useful on the bus, to pass the time when moving between locataions, or when sitting on the toilet.

1.1 Definitions, acronyms, abbriviations

LOTR: Lord of the Rings.

2 Requirements

2.1 User interface

2.2 Functional requirements

2.3 Non-functional requirements

3 Use cases

3.1 Use case listings

4 Domain model
